

Kim De Serpa, LCSW
Healthcare Leader/Trustee

I am a mother, wife, community volunteer, and public servant - having been your (Pajaro Valley Unified School District Trustee) since 2010. Some of you may know me from my work in local hospitals, clinics, or at hospice. As a medical social worker, I am passionate about, and committed to, helping people build better lives within our vibrant communities.

53

I will advocate for our fair share of the county budget to ensure our area has access to essential health and social services, road maintenance, and public safety. I will fight for additional housing, job opportunities, economic vitality, improved transportation, and greater support for children and families, seniors, and vulnerable citizens in our community.

54

As a resident of rural Aptos for 26 years, I have knowledge of the strengths and unique resources that make our (Second District) communities exceptional. I know my experience as a healthcare leader, governance of a \$330 million school district budget, committed service on nonprofit boards, and local community involvement have prepared me to govern at the county level. I deeply understand the (Second District), the (Pajaro Valley), and the (Monterey Bay) region, and I am ready to serve as your supervisor.
