

Kimberly De Serpa-Parent, Social Worker, Incumbent

As a seasoned school board member and presiding president I have shepherded in multiple improvements for our students, teachers and staff; including one of the most important tasks- selection and retention of a qualified and excellent superintendent. Under demonstrated leadership, our student achievement has improved 63% in literacy. Music and arts programs have been returned and expanded. Sports programs are fully supported. Pajaro Valley Unified is a recognized leader among districts, both state-wide and nationally for our innovation. Our students are thriving.

One of my core values is collaboration, both on the board and in the community. PVUSD partners with organizations that serve students' academic success and wellness including; Cabrillo College, CSUMB, UCSC, Graniterock, Community Foundations, Second Harvest Food Bank, Salud Para La Gente, Community Action Board and Pajaro Valley Prevention and Student Assistance.

With your support we passed a school bond, improving facilities. PVUSD has been awarded \$14 million over the last 4 years to enhance opportunities for our students. Our teachers and staff-the heart and soul of our district have the highest total compensation in the tri-county area.

I am proud to represent you as trustee and humbly ask for your vote.
