

JEFFREY HILL FOR SLV WATER DIST

I have lived in the San Lorenzo Valley Water District for 34 years. The District is facing some very large challenges over the next few years, as it rebuilds significant infrastructure destroyed during the CZU fire, negotiates proposed mergers with three smaller, neighboring water companies that were heavily damaged by the fire, and continues ongoing maintenance and upgrades of existing facilities to better serve our residents. All this work needs to be accomplished at reasonable cost and with environmental sensitivity and care. It won't be "business as usual." My experience as a business executive, manager and owner have given me the financial, program management and strategy skills needed to oversee District operations as a Director during this challenging time. Earlier this year I was appointed to fill a vacancy on the board, and I am fully up to speed with the issues. I will do my best to ensure that we continue to provide citizens of the District with reliable, high quality water at fair and reasonable prices.
