

Candidate's Statement for Donna Ziel, Cabrillo College Board of Trustees, TA 1

I am seeking re-election to the Cabrillo College Board of Trustees to continue supporting our faculty, staff and students to be the best that they can be. We have many exciting challenges and opportunities ahead such as building student housing, developing new programs to meet the workforce training needs of our region and increasing diversity, equity and inclusion in all that we do. My background and experience will be important as we move forward. During my three terms on the Cabrillo Board, I have twice been Chair of the Board, have served on a Presidential Search Committee and two Bond Committees. I serve on the Cabrillo College Foundation Board and am a member of the Veterans Services Advisory Committee, the Stroke and Disability Learning Center Advisory Committee and the Transfer Advisory Committee. I established (and Chair) the Board's Legislative Advocacy Subcommittee. The latter has worked with our faculty union to support revisions to a systemwide policy that limits course repeatability. I was instrumental in establishing Cabrillo's membership in a statewide Women's Caucus which has honored outstanding Cabrillo women faculty and staff. I look forward to continuing to support the best community college in the state! Vote for me in November!
